ATF MISSION

The Bureau of Alcohol, Tobacco, Firearms and Explosives (ATF) is a principal law enforcement agency within the United States Department of Justice dedicated to preventing terrorism, reducing violent crime, and protecting our Nation. The men and women of ATF perform the dual responsibilities of enforcing Federal criminal laws and regulating the firearms and explosives industries. We are committed to working directly, and through partnerships, to investigate and reduce crime involving firearms and explosives, acts of arson, and illegal trafficking of alcohol and tobacco products.

FIREARMS SAFETY

- Treat every firearm as if it is loaded (even if you think it is not).
- Keep fingers off trigger.
- Always keep firearms pointed in a safe direction.
- No evidence is worth losing a life over.

TIPS FOR FIREARMS QUERIES USING MOBILE NCIC TERMINALS

- Query firearm serial number in NCIC.
- Use caution in identifying letters and numbers. For example, be careful distinguishing between “5” and “S,” “Z” and “2,” etc.
- Following a “hit,” be sure to compare serial number, model, caliber, and miscellaneous field.
- The “Make” (MAK) field may contain Make, Brand, Model, or Trademark.
- Be aware, the serial number match is important. Discrepancies with MAK and/or MOD do not rule out a match if the serial numbers are the same.
